Authorization for this examiner's amendment was given in a telephone interview with Jane Massey Licata on June 15, 2006.

The application has been amended as follows:

IN THE CLAIMS:

7. (Amended) A method of identifying test compounds that decrease as ~~inhibitors of somatotrophic hormone-induced cell proliferation comprising assessing~~ the ability of a test compound to inhibit interaction of ~~contacting~~ cyclophilin B with a somatotrophic hormone in the absence and presence of the test compound *in vitro*, wherein inhibition of the interaction of cyclophilin B with said somatotrophic hormone ~~results in decreased levels of cell proliferation~~ a decrease in binding of cyclophilin B to the somatotrophic hormone in the presence of the test compound as compared to binding in the absence of the test compound indicates that the test compound decreases somatotrophic hormone-induced cell proliferation.
